

## Explore the shore with Beach Schools NI

Beach Schools NI is a new educational initiative launched in Northern Ireland in 2018 that provides opportunities for children to have fun and adventure within coastal environments.

We offer bespoke sessions for primary schools and nurseries that are aligned to the core elements of the NI curriculum.

Sessions combine outdoor learning with environmental awareness and responsibility and every session supports mental and physical wellbeing.

### Activities Include

Rock pooling, beach art, species identification, sorting & sequencing, beach sports, pirate quests and much more.

Beach Schools NI can also help Eco Schools accreditation by supporting relevant Eco-Schools topics.
